## BOOK SYNOPSIS

Allen Steele, author of *Arkwright*, gives us a thrilling piece of science fiction pulp with *Avengers of the Moon*. Curt Newton has spent most of his life hidden from the rest of humankind, being raised by a robot, an android, and the disembodied brain of a renowned scientist. This unlikely trio of guardians has kept his existence a closely guarded secret after the murder of Curt's parents. Curt's innate curiosity and nose for trouble inadvertently lead him into a plot to destabilize the Solar Coalition and assassinate the president. There's only one way to uncover the evil mastermind—Curt must become Captain Future. With the permission of the Edmond Hamilton estate, Allen Steele revives the exciting adventures of Captain Future. At the Publishers request, this title is being sold without Digital Rights Management Software (DRM) applied.
